Global Family Group and his founders,

My best regards to all of you.

Don't be surprised by the way I formulate my sentences in English, my mother language is French and I put less work this time to correct my sentences.

Shortly, 2026 was my deadline to see what is really going on with this promise of financial relief for all humanity repeatedly announced since 2020 with the probable EBS or something else. (Now, it is supposed to arrive before the 4th of July because something is strange with Trump/Elvis/Central Casting (purple tie or red tie, not yellow or green ones) who cannot assist in the wedding of his son because of the war in Iran.)

By now, I seek to make alliances to increase my presence in this work of remembering, knowing and cleaning the house and give my support to all of those involved in it; or I will have to find a job in the old world to survive.

Here a simple proof of the fraud about our « Legal Names »; just click https://www.no-thingman.com/_files/ugd/3e1b04_1f62b87467dd491db477113bd057b4d2.pdf. « Desjardins Assurances » admitted that Eric Blackburn and ERIC BLACKBURN are not the same « Person » exactly as shown in the judgment of the court of Chancery of the Divine Province revealed by Anna: <http://annavonreitz.com/annastatus.pdf>. And this same « Desjardins Assurances » put a « Recovery Agency » against me for another file because they don't want to answer my simple question about the contract; and the funny thing, this agency only wrote to me by email (all of it is documented on my website).

I also did the job to reclaim publicly my living man nature, I declare myself as eric blackburn or eric de la famille blackburn and I also wrote to the principal « Corporate Governments Agencies » about the fraud they perpetrated and let them know that I will take back the control of my « name-Name-NAME » copyrights and the « Public Trusts » relate to me with the usufructs and make sure that justice will be served and sue them if needed.

See the link here for the affidavit: <https://no-thingman.com/politique#assermentation> with my public invitation <https://no-thingman.com/politique#invitation> for a public lecture of it <https://no-thingman.com/politique#ex%C3%A9cution> and the list of the 72 entities that I wrote to <https://www.youtube.com/watch?v=rurSNT9cvJ4> with the notice sent https://www.no-thingman.com/_files/ugd/3e1b04_d3ae8a85e4054e84a49a926adf407aa6.pdf.

(Note: as witness to this email, I added my mother **lise** and my father **alain** who also signed the affidavit. And like so many others who are in this world in between, they know the corruption but they wonder where I'm going with all of this and how it could change something without any support. I'm committed to find the answer and be the example they need first to understand it easily.)

It is clear that Anna's works inspired me and that I am aligned with the solution and the values/choices you are based on. It is also clear that I am an exception in my entourage; most of them don't understand what I'm doing or talking about, and not so many would have quit their job without salary since then to do this work the way I did it. So, something is going on here objectively.

But understand, just opening an account and waiting is not enough in my case, I'm serious about knowing and being totally in charge of myself, exactly as Anna said in her notices and what we hear about in all this « Great Awakening ». And I seek for coherence related to it.

That's why, I want to know who you really are, I want to talk to someone, to know who are in charge of the Group, meet them and connect with your network to see if I can be a part of it and organise the promotion and explanation here in the Province of Quebec in an accessible and digestible political form.

I'm going to turn every stone, question everything, no veil anymore and any power on this earth will have to count me in, they have to reveal themselves to me, I will not tolerate the blurriness of the secrets of gods anymore. Ana, The Breath

before The Voice and eric, the voice of the living man; that sounds pretty cool in that story. The fact that I don't know doesn't mean that I am not able to ask a good question and deserve the answer now.

The same way, I will not accept to receive or open an « QFS » account without knowing what it implies as a contract or not, or who is in charge behind all of this. Not enough if the « Alliance » tell me that the arrests, the trials and the sentence in GITMO were already done or if it is true that the leader of the 189 Fallen Angels arrested is actually detained in the Vatican. I have to witness it for the sake of the simple man that I am and his family. It will be in our archives to be never forgotten again and accessible to everyone who wants to know it.

That's why I wrote to Anna a public letter <https://no-thingman.com/politique#anna>. This letter shows the synthesis in English of my comprehension until now and what I don't know and the way I'm questioning it without any restriction or fear; because I am engaged to know and make sure that every one who enters in contact with me understands that.

Thanks for getting back to me as soon as possible, thanks for existing, it is really impressive to see the amazing fight you put yourself in to bring this concrete, organized and already accessible alternative solution. If you were not already there, you are exactly what we should construct.

It will be an honor to help you, to work with you and to learn more; but first, I have to validate if I can give you my trust and the reason is absolutely the same one that it is claimed to be at the basis of your creation. Of course, it goes both ways.

Much love to you

eric
